Clinical trial services

Since 1993, Hammersmith Medicines Research (HMR) has supplied industry-leading services for phase I and early phase II clinical trials. We offer a full service, including laboratory, pharmacy and radiopharmacy, from trial design to final report.

We specialise in:

- First time in humans
- 'Umbrella' protocols
- Drug-drug interactions
- Special groups: elderly, post-menopausal, genetic polymorphisms
- Bridging studies
- ADME
- Microdosing
- Positron emission tomography
- Biological products

First-class facilities
